

## AMS Flush Panel

AMS Flush Panel is a quality choice for wall, soffit, mansard and fascia applications. The concealed fastener system combined with its flush smooth appearance make this panel a superb choice for all architectural projects that require a distinctive look. AMS Flush Panel is also available for vented soffit and acoustical applications.

### TESTING

- ASTM G-23 Type EH Accelerated Weathering
- ASTM 2274 Humidity Resistance
- ASTM B 117 Salt Spray Resistance
- ASTM D 1808 Chemical/Acid Pollution Resistance
- ASTM D 3363 Hardness
- ASTM D 2794 Impact Resistance

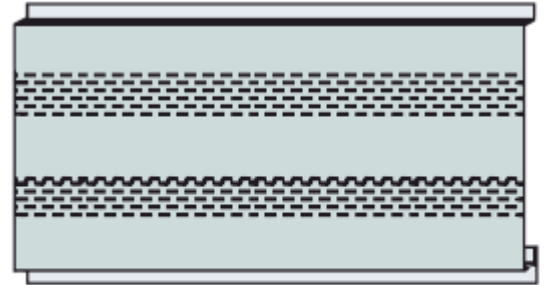

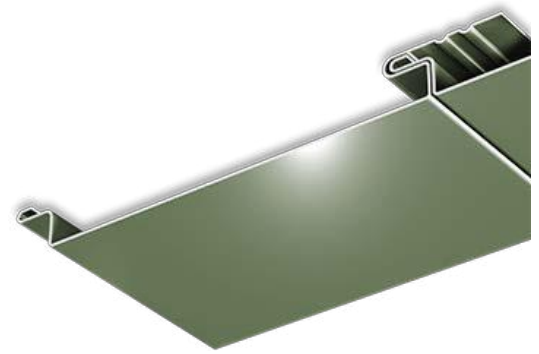

**SMOOTH OR STUCCO EMBOSSED  
SOLID OR PERFORATED / VENTED**

### MATERIALS FORMED

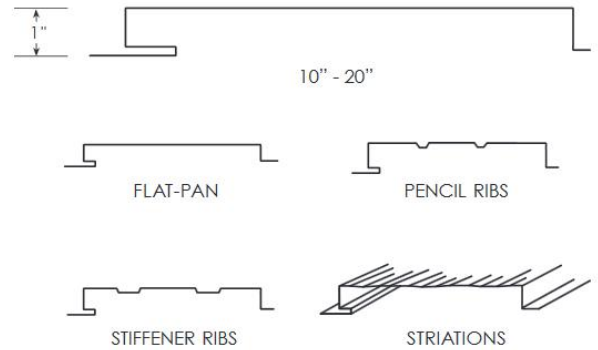

- Aluminum .019 - .032
- Zinalume 30 Ga.-24 Ga.
- Galvanized 30 Ga.-24 Ga.
- Copper 16oz. - 20oz.

### FINISHES

- 53 Kynar Painted Colors
- 33 SMP Colors
- 25 Polyester Colors
- Custom Colors

VENTING DETAIL

Please contact us for more information on projects that require a heavier gauge. Oil canning is a natural occurrence in metal panels and is not a cause for panel rejection.
