

THE BASIS OF DESIGN

Substructure

CEE-01

HAT-01

ZEE-01

Projection - 1" Material Thickness - .090 Aluminum Finish - Painted Black

- **Rust proof**

Unlike steel or wood, aluminum performs extremely well in humid conditions

- **Lightweight**

Aluminum is about $\frac{1}{2}$ of the weight of steel

- **Strong**

Aluminum meets or exceeds most building codes for strength

- **Invisible**

Finished black so that it is invisible behind any panel system

- **Economical**

The ratio of strength-to-weight equals more value for less weight

- **Long-lasting**

With an almost indefinite life expectancy, will not deteriorate

- **Environmentally Friendly**

Made with recycled metal and is 100% recyclable
