THE BASIS OF DESIGN

WE'VE GOT YOU COVERED.

RESIDENTIAL MATERIALS

BENEFITS

Unmatched Performance

- Tested to withstand extreme weather conditions, our materials are engineered to stand strong – giving you piece of mind, so you can focus on living, not maintaining.

Design Versatility

- Some homes blend in, others impress—yours can captivate. Whether your style is traditional, bold or something in between, our full range of profiles and colors bring your vision to life.

Highest Quality

- Panels are manufactured using the highest quality materials.

Zero Legacy of Maintenance

- All materials have zero legacy of maintenance and do not require caulking, butyl tape, or pressure sealant tapes. In addition, the products will never need to be painted or stained. The beautiful finishes are sustained for decades, even in harsh weather and intense sunlight.

READY TO SHIP

Equitone and Trespa materials are in stock at AMS and are ready to ship now!

THE BASIS OF DESIGN

AMS

THE BASIS OF DESIGN

High-Performance Exterior Materials

AMS is a trusted partner to architects, contractors, installers, and manufacturers alike. Collaborating on a wide variety of building construction projects and award-winning buildings has earned us a solid reputation for knowledge and service.

We focus on strategies that provide high-performance architectural materials for long-lasting building exteriors. We work with the top manufacturers in the industry to account for every aspect of our exterior construction products.
